Speculators Become Heavy Buyers on Receipt of Washington News-Indianapolis Grains Inactive.

At New York, Saturday, the money market was without feature. No business was call loans and little in outside market The bank statements showed a heavy increase in reserve deposits and loans, the latter item giving evidence of a gradual abandonment of hoarding and a healthier monetary condition. Call loans were nominally 2 per cent. Prime mercantile paper was 51/2071/2 per

Sterling exchange was steady, with actual business in bankers' bills at \$4.834@ 4.831/2 for demand and \$4.801/2@4.803/4 for sixty-day bills; posted rates, \$4.81\204.84\2; comercial bills, \$4.79@4.791/2.

Silver certificates were 72@721/2. Bar silver closed at 711/2c per ounce; Mexican dollars, 571/2c. At London bar silver closed at The New York weekly bank statement

shows the following changes: Loans, increase...... 3,285,100 increase...... 846,000 Circulation, decrease..... 79,700 The banks now hold \$48,787,476 in excess of

the requirements of the 25 per cent rule. Bank clearings on Saturday were \$102,-\$47,536; balances, \$5,713,477; clearings for the week, \$745,371,946; balances, \$32,107,742.

The total sales of stocks, Saturday, were 224,000 shares. The week closed on the New York Stock Exchange with an active and strong speculation. All the conditions seemed to favor an upward movement, yesterday morning, and the usual diffidence which many operators felt in carrying stocks over Sunday was not apparent in the dealings. A good bank statement was looked for and it came equally favorable as was anticipated. There was heavy buying on this expectation and renewed purchases on the realization. The special influences working on the market were nearly all on the bull side. London advices showed an improvement in American securities, there was some buying for the foreign account and a little selling as well. Manhattan was in demand by operators who desired to obtain a controlling interest. Atchison was bought for the Boston account and there were large purchasing ororders for Philadelphia & Reading. A scarcity of floating Western Union stock was a warning to the short interest to cover. The Washington news too, was very favorable to an immediate vote on the silver bill in the Senate and this discouraged operations on the part of the bears and left the market practically in the hands of the bulls. Final dealings in many cases were at the highest figures of the day, and, in few instances, more than a small fraction below the best. Cordage was an exception to the general list, the publication of the receiver's report having been accepted as unfavorable. The advance in the general list of the transactions of the day extended to 3 per cent.

The railway and miscellaneous bond market was very active and strong. Chesapeake & Ohio, R. & A. division consol fours rose 6. Government bonds were steady and State bonds inactive. Closing quotations were:

LOCAL GRAIN AND PRODUCE.

A Week of Disappointment in Trade, with Numerous Changes in Values.

In most departments the volume of trade in the week ending Oct. 28 was disappointing in its volume, while in many lines weaker prices rule than on Monday last. Under this list comes provisions, hides, poultry and vegatables of most kinds. In the grocery line California fruits, beans and some descriptions of canned goods and dried fruits are weaker. Staple groceries, however, are steady and firm. Sweet potatoes are firmer on lighter receipts, but no higher. Irish potatoes on increasing receipts are 10 cents lower than on Monday, making a reduction of 20 cents since Oct. 1. It is believed that they will be still lower. The poultry market is better supplied than a week ago, and prices, although not lower, are easier on a quiet Eastern demand. There was a little more life in the local grain market on Saturday. Wheat advanced 1 cent and oats were firmer; corn steady and in fair request. Track bids ruled as follows:

AN UNCERTAIN CLOSE

Chicago Wheat Higher, but Increase in Visible Feared.

Receipts from the Northwest Heavy Beyond Expectations-Provisions Generally Firm and Lower.

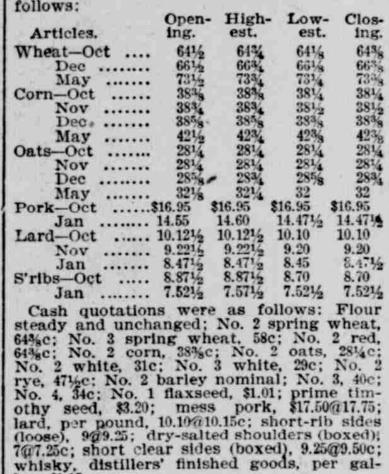

CHICAGO, Oct. 28 .- Unexpectedly heavy Northwestern receipts to-day knocked out the theory of a falling off in the wheat movement, Incidentally a bulge in the price was also knocked out. It was also found that 1,200,000 bushels of the week's exports went from Pacific ports, and that the visible might show a big increase, regardless of the better clearances. This, with the natural disposition to take profits, left prices only %c better than last night, and the closing very uncertain. Con secured only 1/2c of a 3/2c advance. Provisions closed with a trifling loss.

Wheat at the opening was 1/2c to 1/3c higher than yesterday's closing, and held quite firmly for a while, then eased off, prices declining 1/2c, ruled rather steady, and the closing was about 4c from inside figures. Cables were stronger and higher, the clearances for the week from both coasts were 600,000 bushels larger of wheat and flour, the New York bank statement was favorable, railroad stocks were higher and a general buoyant feeling pervaded all departments, influenced by the news from Washington. However, the receipts in the Northwest for the week were about 300,000 bushels larger than the preceding week, and the export clearances of wheat from five Atlantic seaboard and gulf ports were about 200,000 bushels smaller than the preceding week. It was generally estimated that the visible supply would show an increase of about 1,500,000 bushels, against an increase of 2,292,000 bushels the corresponding week a year ago.

Corn opened quite strong at 1/4@1/4c ad vance, and in some instances a further improvement of 1/4/2/4c was gained. Later, the feeling was not so strong, and prices gradually settled back again 1/4/2/3/4c, and the market closed rather quiet at the reduction. As usual on the closing day of the week, business was very moderate. Anticipated heavy receipts on Monday and Tuesday was a depressing factor toward the end. Oats were steady, prices averaging slightly better, and the close on the near futures was \%@\4c higher, but on May steady.
There were no new features.

Business in provisions was confined to the local operators, and was not by them in-dulged in to a heavy extent. The market was generally firm until the close, when the setback in wheat seemed to pull the props from hog products. Pork is 7½c less cost-ly than last night. Lard and ribs are about

Freights were rather slow, but rates were unchanged at 2c for wheat and 1%c for corn to Buffalo. Estimated receipts for Monday are: Wheat, 220 cars; corn, 515 cars; oats, 280 cars; hogs, 25,000 head. No markets Monday on account of the last day of the fair. The leading futures ranged as follows: Open- High- Low- Clos-

MINNEAPOLIS, Oct. 28, - December wheat opened at 614c and May at 68c, and, after the ordinary fluctuations, prices closed at 62½c for hard; in store, 60½c; No. 1 Northern, 58½c; No. 2, 61c; December, 67¾c. On track: Hard, 63½c; No. 1 Northern, 61½c; No. 2, 591/2c. Receipts, 524 cars; shipments, 573 cars. The demand was good for track wheat, which sold at 61%c, mostly, for No. 1 Northern, with some choice cars selling above that. Elevator men and millers in the city and outside were the principal buy-ers. There was no activity to buy for ship-ment. Farmers were selling freely to the end of the week. Flour shows no improve-ment, and it is slow. The demand would be good at somewhat lower prices, but owing to the better wheat prices, especially for track stuff, sellers do not see their way to accept them without loss. Considerable flour is going out on old orders, and this, with what sales are made, keeps the production pretty well disposed of. Shipments, 45,675 brls. Quoted at \$3.50@3.90 for first patents, \$3.20@3.50 for second patents, \$3.20@3.50 for fancy and \$1.65@2.05 for export. AN IRISH REPUBLICAN. Ex-Congressman Finerty Gives . Twelve Reasons for His Faith. Donahoe's Magazine for November.

I will answer categorically, as it were, the question, "Why are you a Republican?" 1. Because the Republican party since its final consolidation, in 1856, when John C. Fremont was its presidential candidate, has been the consistent friend of American liberty, progress and dignity. 2. Because the Republican party appro-priated to itself all that was best in the national policy of Jefferson, Monroe and

3. Because the Republican party never, for a moment, countenanced the doctrine of the right of secession, as taught by John C. Calhoun, of South Carolina; Jefferson Davis, of Mississippi; Clement L. Vallandigham, of Ohio, and their followers, South and North. 4. Because it boldly grappled with the

formidable problem of crushing the rebel-lion fomented by a section of the Demo-cratic party, and sympatized with by another section of the same, almost equally 5. Because, by a just policy of taxing foreign imports, it made the direct burdens of the people lighter, established our credit

abroad, equipped, armed and paid a gigantic army and formidable navy for the restoration of the Union; paid the interest of our enormous national debt, forced upon us by a section of the Democratic party in rebellion against the national government, and finally reduced that debt itself to pro-portions that no longer embarrass our pros-6. Because it has been the consistent

friend of naval construction and coast fortification, commensurate with our commercial interests and dignity as a power of the first class, peaceful if we can and warlike if we 7. Because it holds American interests

dearer than party expediency, and refuses to sacrifice the prosperity of the Union for the special benefit of any particular section thereof; and, further, because it believes in the policy of justly protecting our native industries against cheap foreign competition, as taught by Washington, Jefferson, Clay, Lincoln and Blaine,

Because it has ever upheld the national flag against domestic enemies and foreign rivals, and has not been in undignified haste to haul down the stars and stripes for fear of offending alien intermeddlers. 9. Because it is liberal in its dealings with the old soldiers of the Union, and disdains to practice a beggarly experiment of economy against men who saved the Nation, when their critics were in arms against it, or else applauding those who

10. Because the progress of the great Re-public, under the administration of the Republican party, has been without a parallel in ancient or modern history, and because that party has proved itself equal to the task of rectifying errors of policy without loss of consistency or prestige.

11. Because I believe that "Irishmen and Catholics," like all other American citizens, should take sides, according to their

lights, as Americans, on all American political issues. 12. Because I believe that nothing more fatal to the interests of the Irish people in America could occur than to be the slaves of any single political party, simply because they are bound to it by a tradition which may well be defined as a political superstition.

How to Shuck Black Walnuts. Ohio Farmer.

One difficulty in securing these nuts is the difficulty in removing the outer coating. This may be largely overcome by boring a few holes with an auger through a piece of plank, and driving the nuts through the holes with a small-headed hammer. blacksmith's shoeing hammer is good. The holes should range from one to two inches, so that the different sizes may be put through the hole that will remove the shuck. By having the receptacle entirely covered except the hole the shucks are thus separated from the nuts. There will be a small portion of the shuck

left on where it came over the hole, but

when the nuts are dried a little this is easily removed if it does not drop off of itself. The shucks may be brushed to one side into a box, so that everything is cleaned up. One great advantage of this is that the hands are but slightly stained, and most of it may be removed by washing in gasoline. One person with this costless arrangement can take the shucks from two bushels in an hour. It pays to wash the shucked nuts while yet wet in a tub with a broom, as they are then freed from the remnants of the outer coating and look much nicer when served. Many of the boys may have already used such an arrangement, but
